

GEORGIA: A PRIME DATA CENTER LOCATION

WHY IS METRO ATLANTA HOME TO MORE THAN 50 MAJOR DATA CENTERS FOR LEADING GLOBAL COMPANIES?

- Highly reliable power infrastructure and competitive electric rates
- Customer choice for power needs of 900kW connected load or greater applies in many cases
- Ranks among the top five U.S. markets for total bandwidth and fiber access
- Low risk of business disruption
- Favorable business climate
 - Six percent state corporate income tax rate is based on in-state sales only
 - A special sales and use tax exemption is available to data centers that spend \$15 million or more in a given year in eligible hardware and software
 - Property tax rates may be negotiated
- Georgia Tech and Kennesaw State University are National Centers of Academic Excellence in Information Assurance
- The Atlanta airport offers unsurpassed access to 151 domestic and 80 international destinations
- **Result: Low Total Cost of Ownership**
